PROFESSIONAL SUMMARY :

MCA graduate with a strong foundation in Java, SQL, OOP, DBMS, and application development, currently working as an Analyst Trainee at Cognizant. Experienced in developing Java-based applications with JDBC and MySQL, along with strong problem-solving and analytical skills. Seeking an entry-level Software Developer/Java Developer role in the IT industry to apply my technical knowledge, develop scalable software solutions, and grow as a software professional.

PROFESSIONAL EXPERIENCE :

COGNIZANT | Analyst Trainee

May 2026 – Present

- Completed training in IT service desk processes and customer support.
- Gained knowledge of incident management, troubleshooting, and IT service management fundamentals.
- Participated in communication and professional development sessions.
- Strengthened problem-solving, technical, and interpersonal skills through training and assessments collaboration.

PROJECTS:

Banking Database Management System

Java | JDBC | MySQL | XAMPP | Eclipse

- Developed a GUI-based banking application with login, registration, deposit, withdrawal, and balance inquiry features.
- Integrated Java with MySQL using JDBC for database connectivity and transaction processing.
- Designed a normalized database and implemented authentication and account management functionalities.

Smartphone Usage and Impact

Google Forms | Microsoft Excel | PowerPoint | Word

- Conducted a survey with 250+ participants to analyze smartphone usage and its impact on daily life.
- Analyzed and visualized survey data using Microsoft Excel to identify trends and patterns.
- Presented key findings through structured reports and presentations.
